### Levels of approval

The levels of approval are:

- Gold Approved Learning Partner (Gold ALP)
- Platinum Approved Learning Partner (Platinum ALP)

**GOLD**  
We recommend Gold ALPs to our students.  
Gold approval requires learning providers to have met a range of challenging performance targets regarding the student experience and expectations as well as institution policy and continuous improvement.  
As a Gold ALP, your approval is renewed annually upon successful completion of your renewal submission. We also provide you with results analysis and we conduct monitoring visits to ensure that performance targets continue to be met and to identify any areas where we can work with you more closely.  
Monitoring visits will normally be conducted at least once every three years. Review of student performance and student feedback will be considered to identify if we need to conduct monitoring visits more frequently.

**PLATINUM**  
We actively recommend and promote Platinum ALPs to our students.  
Platinum approval is the highest and most prestigious level of the ALP programme. Platinum ALPs have proven their ability to sustain excellent student pass rates. They also demonstrate excellence regarding the student experience and expectations, institution policy and continuous improvement over and above the performance targets that have already been demonstrated by Gold approval.
